NITRILE GLOVES

- Powder-free or powdered
- 3.0 / 3.2 / 3.5 / 3.7 / 4.0 / 4.5 / 5.0 / 5.5 / 5.8 / 6.0 grams
- Blue / Black / White / Pink / Violet

Medizay is proud to offer our soft and easy-to-put-on nitrile gloves, designed for optimal comfort and convenience in healthcare settings. Crafted from high-quality materials, these gloves provide a gentle yet snug fit, reducing hand fatigue during extended wear. Their ergonomic design and textured fingertips ensure excellent dexterity and grip, enhancing precision during procedures.

Available in a vibrant array of colors including blue, black, white, pink and violet, our products not only prioritize functionality but also add a touch of personalization to your workspace.

BIODEGRADABLE NITRILE GLOVES

- Powder-free
- 3.5 grams
- Green

Ecozay's biodegradable nitrile gloves are revolutionizing the disposable glove industry with their remarkable eco-friendly properties. Our biodegradable nitrile gloves are made like regular nitrile gloves, but we add special materials that breaks the gloves down quickly and efficiently, leaving no harmful residue.

The gloves are fully decomposed once they hit the ground in a maximum of 5 years, unlike traditional nitrile gloves that can take up to 200 years to decompose.

LATEX GLOVES

- Powder-free or powdered
- 4.9 / 5.0 / 5.2 / 5.5 / 6.0 / 6.5 grams
- White (Natural)

Discover the epitome of quality and reliability with Medizay's latex gloves, crafted to perfection for a wide range of applications. Our powder-free latex gloves offer unparalleled comfort and sensitivity, making them ideal for healthcare professionals and individuals with sensitivities to powder.

With European quality standards at the forefront, these gloves provide exceptional durability and protection against contaminants in medical, laboratory, and food handling environments. For those who prefer powdered gloves, our Medizay range delivers superior grip and ease of donning without compromising on safety.

SURGICAL GLOVES

- Powder-free
- 7.5 / 8.0 / 8.5 / 9.5 / 10.5 / 11.5 grams
- White (Natural)
- Polyisoprene or latex

Medizay's top-quality surgical gloves are meticulously designed to meet the exacting standards of the medical profession. Each pair is individually packed, ensuring sterility and hygiene for every procedure. Crafted with precision and care, these gloves offer unparalleled tactile sensitivity and comfort, allowing for precise movements and optimal control during delicate surgeries.

Made from premium materials, our surgical gloves provide exceptional durability and protection against contaminants, giving surgeons and healthcare professionals the confidence they need.

LONG CUFF GLOVES

- | | |
|-------------------------------------|--|
| - Nitrile | Latex |
| - Blue | White (Natural) |
| - 6.0 / 6.5 / 7.0 / 7.5 / 8.0 grams | 7.0 / 7.5 / 8.0 / 8.5 / 9.0 / 10.0 / 10.5 / 11.5 grams |

Medizay's medical long cuff gloves stand out for their exceptional quality and performance in healthcare settings. Crafted with precision and attention to detail, these gloves provide a reliable barrier against contaminants and ensure optimal protection for medical professionals. The extended cuff design offers additional coverage, enhancing overall safety during delicate procedures. Made from premium materials, these gloves offer durability without compromising on comfort, allowing for prolonged wear without causing fatigue.

Medizay's commitment to excellence is evident in the superior strength and elasticity of these gloves, ensuring a snug and secure fit for users. With Medizay's long cuff gloves, healthcare providers can trust in a top-quality product that meets the rigorous demands of medical environments.

VINYL GLOVES

- Powder-free
- 4.0 / 4.5 / 5.0 / 5.5 grams
- Transparent

Medizay's vinyl gloves are precisely crafted to meet the stringent demands of various industries, including healthcare, restaurant, dental, and the tattoo business. These gloves are manufactured using top-quality vinyl materials, ensuring exceptional durability and reliability in diverse settings.

Whether handling food in a restaurant kitchen, performing dental procedures, or executing intricate tattoo work, these gloves provide a reliable barrier against contaminants and ensure optimal hygiene standards.

CUFF FIRST GLOVES

- | | |
|-------------------|-----------------|
| - Nitrile | Latex |
| - Blue | White (Natural) |
| - 3.2 / 3.5 grams | 5.0 / 5.5 grams |

Under the brand Medizay, our medical and dental gloves are engineered with the innovative Safedon cuff technique, prioritizing safety and convenience for healthcare professionals. This unique design features a secure cuff that ensures easy donning and prevents roll-down, minimizing the risk of contamination during glove application.

Crafted with precision and attention to detail, these gloves provide superior protection against pathogens and hazardous materials, meeting the stringent standards of medical and dental environments. The Safedon cuff technique enhances glove integrity, reducing the likelihood of tears or breaches during use, thereby ensuring uninterrupted protection throughout procedures.

DIAMOND GRIP GLOVES

- Powder-free
- Thickness: 6 / 7 / 8 / 9 / 10 mil
- Black / Orange

Medizay's safety gloves with diamond grip are engineered to provide exceptional protection and grip in a variety of industrial and medical settings. The diamond grip texture enhances traction, ensuring a secure hold on tools and equipment, even in challenging conditions. These gloves are crafted with premium materials to offer superior durability, allowing for extended wear without compromising on performance.

Designed with safety as a top priority, they provide a reliable barrier against chemicals, abrasions, and punctures, safeguarding users from potential hazards. Medizay's dedication to quality is reflected in the meticulous construction of these gloves, which undergo rigorous testing to meet industry standards.
