THE BENEFITS OF ECOZAY

THE VISION OF ECOZAY IS TO MAKE A DIFFERENCE IN THE WHOLE SUPPLY CHAIN OF OUR BIODEGRADABLE PRODUCTS

SUSTAINABLE TRANSPORT BY USING FULLY ELECTRIC TRUCKS WITH 0% CO2 EMISSIONS

WE AIM TO USE THE MOST SUSTAINABLE WAY OF SEA TRANSPORT

FSC PAPER IS USED FOR OUR BOXES. WE HAVE REDUCED THE SIZE OF OUR GLOVE BOXES TO BE ABLE TO TRANSPORT A LARGER VOLUME IN A FREIGHT CONTAINER.

LESS CO2 USED WHEN PRODUCING BECAUSE OF THE USAGE OF SOLAR PANELS

NITRILE GLOVES

Powderfree - 3.5 gram

Ecozay's biodegradable nitrile gloves are made from a specially formulated material that breaks down quickly and efficiently, leaving no harmful residue. The gloves are designed to biodegrade in a maximum of 5 years, unlike traditional nitrile gloves that can take up to 200 years to decompose.

The use of Ecozay's biodegradable nitrile gloves is a significant step towards a sustainable future. By choosing these gloves over traditional nitrile gloves, individuals and businesses can contribute to the reduction of waste and the preservation of the environment.

DENTAL BIBS

- Available in the colors: Green and blue
- Unique design
- Top quality
- Water repellent
- 100 pieces in a box

SHOE COVERS

- 65 gsm
- Comfortable, flexible design
- Latex-free, disposable use
- Water repellent
- Chemical repellent
- Amazing quality rubber band

GB 15979
EN 29073-3:1992

ISOLATION GOWNS

- Comfortable, flexible design
- Latex-free, disposable use
- Lightweight, strong enough to tackle the toughest of duties
